European Aquatics – Sustainability Event Certification Report

Event: Junior Diving Championships

LOC / NF: Sport-Events Budapest26 LOC Event Manager

Year: 2026

1. Introduction

This report presents the outcome of the European Aquatics Sustainability Event Certification assessment for your event held in 2026.

It summarises the sustainability measures implemented by your Local Organising Committee (LOC), the assessment results, the points awarded and the final certification level achieved by your event.

The assessment follows the **European Aquatics Sustainability Event Certification framework** set out in the European Aquatics Sustainability Charter.

2. Scoring System

The scoring system is based on the implementation of five priority environmental common measures (the fundamental measures), each worth one point, for a maximum of five points.

In addition, your LOC could select up to three eligible additional sustainability measures from the predefined categories established by European Aquatics. Each selected and successfully implemented category is worth one additional point, regardless of the number of individual actions undertaken within that category.

Your LOC could also propose an alternative* relevant sustainability action, subject to approval by European Aquatics. Each approved and successfully implemented additional measure earns one point, up to a maximum of three additional points.

The maximum possible score for your event is eight points.

Certification levels are defined as follows:

- **GOLD:** All eight sustainability measures implemented.
- **SILVER:** More than five sustainability measures implemented.
- **BRONZE:** Three to five sustainability measures implemented.

3. Fundamental Measures (Maximum 5 Points)

The event was assessed on the following five priority environmental common measures included in the European Aquatics Sustainability Charter:

9, rue de la Morâche
CH 1260 Nyon
SWITZERLAND
Tel +41 22 552 99 99
Fax+41 22 552 99 89

- **Green Task Force** – [Implemented: No] – Score: [0/1]
- **Sustainable Fun Zone** – [Implemented: No] – Score: [0/1]
- **Elimination of Single-Use Plastic** – [Implemented: Yes] – Score: [1/1]
- **Waste Reduction and Management** – [Implemented: Yes] – Score: [1/1]
- **Sustainable Mobility**– [Implemented: Yes] – Score: [1/1]

Total score from fundamental measures: [3 out of 5]

4. Additional Sustainability Measures (Maximum 3 Points)

In addition to the five priority environmental common measures, your LOC could select up to three additional sustainability measures from the predefined categories established by European Aquatics.

The following section summarises the additional measures selected and implemented at your event and the corresponding points awarded.

- **Solidarity Ticketing** - Implemented: [Yes] - Score awarded: [1/1]
- **Local & Sustainable Suppliers / Merchandising** - Implemented: [Yes] - Score awarded: [1/1]
- **Youth Engagement & Education** - Implemented: [Yes] - Score awarded: [1/1]

***Alternative Measure — Subject to EA Approval** - Implemented: [No] - Score awarded: [0/1]

Total score for additional sustainability measures: [3/3]

5. Final Score and Certification Level

Following the assessment of your event, the results are as follows:

- Fundamental measures: [3/5]
- Additional sustainability measures: [3/3]

  Total score achieved: [6/8]

Final certification level awarded to your event: [SILVER]

Based on the assessment results and the applicable certification criteria, your event has been awarded [Silver] certification under the European Aquatics Sustainability Event Certification framework.

6. Conclusion

European Aquatics acknowledges the efforts made by Sport-Events Budapest26 LOC Event Manager to incorporate sustainable practices into the delivery of Junior Diving Championships.

We congratulate the organising committee for achieving a sustainability score of [6] and for attaining the corresponding [Silver] certification.

Your commitment contributes to strengthening the environmental legacy of aquatic sports and supports the development of increasingly responsible and sustainable event strategies across Europe.
